

Shanbel Kibre

PROFESSIONAL SUMMARY

I am **Software Engineer and Full-Stack Developer** with hands-on expertise in cybersecurity and penetration testing. Skilled at building robust, scalable applications while identifying and resolving security vulnerabilities to safeguard systems. Fascinated by learning new technologies and passionate about solving complex problems through innovative, practical solutions.

WORK HISTORY

Full Stack Developer Ethiopian House Rental System (Insa Summer Camp Project)

- ✓ Developed a full-stack property rental platform with property listing, search, filtering, authentication, favorites, and owner and renter communication features.
- ✓ Implemented role-based access for property owners, renters/buyers, and administrators.
- ✓ Designed RESTful APIs, database architecture, and responsive frontend interfaces.

Full Stack Developer Debre Birhan Town E-Commerce Platform (Internship Project)

- ✓ Built an e-commerce platform supporting product management, search, shopping cart, orders, authentication, and administration.
- ✓ Developed responsive interfaces and backend APIs for managing users, products, categories, and orders.

Full Stack Developer Debre Birhan University Clearance Management System (2nd year final Project)

- ✓ Developed a digital clearance workflow connecting students, university departments, and administrators.
- ✓ Implemented role-based approval, clearance tracking, dashboards, and status management to reduce manual processes.

Full Stack Developer Ethio Internship Platform (2017 E.c Debre Birhan University Hack ton 3rd win)

- ✓ Built a platform connecting university students, universities, and companies for internship opportunities.
- ✓ Implemented profiles, internship postings, applications, search/filtering, and application tracking.

EDUCATION

Bachelor of Science in Software Engineering (Curriculum Type: Harmonized Modular)
Debre Birhan University

CERTIFICATIONS

- ✓ Cyber Security Student – GTST, Round 14
- ✓ Insa Talent Summer Camp Student – 5th Round, 2018 E.C.
- ✓ DBU Hackathon, 2017 E.C. – 3rd Place, Innovation and Creativity
